16: The instructor treats students with respect.

100% 8	0	0	0	0	0
Strongly Agree	Agree	Undecided	Disagree	Strongly Disagree	Not Applicable

17: I would recommend this instructor to other students.

100% 8	0	0	0	0	0
Strongly Agree	Agree	Undecided	Disagree	Strongly Disagree	Not Applicable

18: Overall, I rate this instructor as...

100% 8	0	0	0	0
Excellent	Good	Acceptable	Marginal	Unsatisfactory

Comments

2: The instructor makes course materials available in a timely fashion.

I feel like combined with work and my other classes getting started on the big labs and being able to finish them in the week is a little hard for me but that could just be me.

Each module is added at the start of the week, giving plenty of time to work on the assignments and follow the lecture.

4: The instructor is suitably involved with the course.

He helps out and will reach out to you if you need help with anything. I have had plenty of trouble and hes always there to help out on zoom or through canvas.

The instructor provides examples and resources for each assignment to help students understand the topics better. Most assignments also come with a walkthrough video where the instructor explains how to do the assignment and goes into more detail on the topics we are learning. The instructor also gives feedback for almost every single assignment, and sometimes asks for feedback to better understand how challenging/interesting the assignments were.

5: The tests, quizzes, critiques and assignment relate well to the subject matter of this course.

Assignments and quizzes are centered around the current topics we are learning from that module.

6: The quantity of work required to learn the material in this course seems appropriate.

I do sometimes feel like the workload is a little light for my liking, though it does give me more time to work on other class work. I do wish that some of the labs were a little bit longer or more complex, as some of the labs felt more like reinforcing my learning rather than testing my skills.

7: The materials used in this course (such as course packets, online presentations, maps, illustrations, and links to other web sites) are helpful.

Many examples are provided for assignments and labs, as well as resources to further research the topics. The lectures are also very beneficial to my learning in this course.

We get a great mix of lecture videos, reading, supplemental videos, and labs. =)

8: The instructor shows interest in this course.

He takes time in grading our stuff. Reading code can be boring, but he finds time to read all the code and pseudo code we write. He also comments on majority of assignments to give us advice or if we are doing great will show us resources to better our education if we would like. I am always excited about this class.

Yes because of the videos I like the videos just would also want separate instructions as well because I like to read along to what is being asked of me to get a better understanding. That could just be me.

The instructor is always willing to answer questions, and help students when they need it. I just recently had an issue with my code environment, and the instructor met with me and walked me through several steps to fix it. On top of that, he also gave me chances to ask questions and helped me better understand how the code environment worked.

9: The instructor inspires my interest in this course material.

This course encourages me to continue with this path and take the next level of web development next semester.

10: The instructor presents material in an organized way.

The assignments, labs, lectures, and discussions are all accessible from the corresponding weekly module.

11: The instructor uses a variety of teaching methods (such as discussion, group projects, or audio/video instruction).

Has great lectures that keeps it short and to the point, you can watch the videos or even read the step by step lecture.

There are labs, lectures, and discussions.

13: The instructor returns graded assignments and examinations within a reasonable time.

His turn around time is so quick. Most assignments are graded a couple hours after I complete them. He also leaves comments which shows he takes his time grading and cares very much about our work.

Many assignments are graded within a few days, and sometimes even the day of.

14: The instructor gives helpful feedback about students work and progress.

The instructor provides feedback on almost every assignment.

16: The instructor treats students with respect.

Keeps a very casual yet professional tone, and genuinely wants students to succeed.

18: Overall, I rate this instructor as...

One of the best instructor experiences I've had here at Butte.

Comments

1: The instructor provided a syllabus that made the course objectives clear.

Syllabus was easy to follow

2: The instructor makes course materials available in a timely fashion.

Instructor is great at updating all the course material in a timely fashion

3: The instructor is well prepared.

Always provides resources

4: The instructor is suitably involved with the course.

Incredibly involved

5: The tests, quizzes, critiques and assignment relate well to the subject matter of this course.

Everything relates perfectly, but the workload can be a bit heavy.

6: The quantity of work required to learn the material in this course seems appropriate.

Workload can sometimes seem a little heavy

It feels like a lot but I really think it is necessary.

7: The materials used in this course (such as course packets, online presentations, maps, illustrations, and links to other web sites) are helpful.

All resources are always available and very helpful

8: The instructor shows interest in this course.

Instructor makes a lot of effort to be involved in the course. Constant feedback is also appreciated.

9: The instructor inspires my interest in this course material.

Instructor is very passionate about subject and very knowledgeable.

10: The instructor presents material in an organized way.

Very organized and easy to find.

11: The instructor uses a variety of teaching methods (such as discussion, group projects, or audio/video instruction).

Many teaching methods were displayed, my favorite was probably the audio/video instructions. The information is always so concise.

12: The instructor grades students according to clearly established standards.

Very clear grading rubric. if there's any misunderstanding its very easy to get in contact and discuss.

13: The instructor returns graded assignments and examinations within a reasonable time.

instructor grades immediately and provides feedback on each assignment.

14: The instructor gives helpful feedback about students work and progress.

Always giving feedback and letting you know what you did right or wrong is so helpful. It also helps you stay inspired and very positive when receiving good feedback.

15: The instructor encourages faculty/student contact through e-mail, office hours, postings, personal contact, or other means.

Alway able to get in contact with the instructor

16: The instructor treats students with respect.

Very respectful

18: Overall, I rate this instructor as...

I want to add that Erik is one of the best teachers I have had at this school. Programming has a steep learning curve and can seem so perplexing. Erik's teaching style has taken the mystery out of so much of it and simplified it in a way that makes me feel confident in attempting projects on my own. He's is incredibly responsive and is always willing to work through a problem with you. I've been so impressed with the effort that he has put into this course.

very passionate about his career and what he's teaching, also incredibly knowledgeable on the subject and work field.

This is one of the best classes I have ever taken. It's challenging but presents real world challenges and projects. Erik has been such an insightful and excellent instructor this semester.

Very thorough explanations in videos talking about the practical/realistic application of all concepts.
